DELEGATION SERVICE**

Be Part of the Leading Energy
Exhibitions and Conferences
at The smarter E Europe

THE SMARTER EUROPE – EUROPE FOR THE ENERGY INDUSTRY

THE SMARTEST EUROPE'S LARGEST PLATFORM

WE OFFER YOUR DELEGATION ATTRACTIVE BENEFITS

A visit to The smarter E Europe exhibitions offers the delegation participants the opportunity to exchange experiences with key players in the energy industry. You will also benefit from these services:

- Free entry tickets to the exhibitions
- Free attendance at the exhibition forums
- Discounted conference tickets
- Easy registration in advance
- Tours of the solar roof of Messe München

MUNICH IS WORTH A VISIT!

As well as being a fantastic exhibition venue, Munich is also home to a host of impressive tourist attractions. After a busy day at the exhibition, you're spoilt for choice. How about relaxing in one of the city's many beer gardens or the famous English Garden? Or perhaps you'd prefer a stroll through some of the stunning Romanesque and Renaissance architecture right in the heart of the city. Whatever you decide, everything is within easy reach thanks to Munich's excellent public transport network. There really is something for everyone in Munich!

WELCOME AT THE SMARTER E EUROPE

Not only is The smarter E the most important innovation hub for events and topics related to new energy solutions, it is also the largest energy industry event in Europe.

Under the motto “Creating the new energy world”, The smarter E Europe brings together four exhibitions and conferences:

- **Intersolar Europe** – The World’s Leading Exhibition for the Solar Industry
- **ees Europe** – Europe’s Largest and Most International Exhibition for Batteries and Energy Storage Systems
- **Power2Drive Europe** – International Exhibition for Charging Infrastructure and E-Mobility
- **EM-Power Europe** – The International Exhibition for Energy Management and Integrated Energy Solutions

More than 85,000 visitors from over 160 countries, including a large number of delegations, come to The smarter E Europe to find out more about the latest innovations and international markets. These delegations trips are organized by chambers of commerce and foreign trade, industry associations and other associations that promote the use of renewable energies.

By attending The smarter E Europe 2023, you and your delegation have the opportunity to meet international stakeholders from across the world’s most influential markets who are helping shape our energy future. Get in touch if you would like to find out more. We would be happy to help you plan and organize your visit.

QUICK FACTS

THE SMARTER EUROPE

INTERSOLAR EUROPE

Intersolar Europe, the world's leading exhibition for the solar industry reflects the rapid growth the solar industry is currently seeing. For more than 30 years, a constant stream of the key solar energy players have been frequenting the event, all under the motto: Connecting solar business. This is where manufacturers, suppliers, distributors, installers, service providers, project developers and planners as well as start-ups network and get a front-row seat to the latest trends, developments and business models.

For three decades, Intersolar Europe has been committed to a sustainable energy system. This vision is now becoming a reality, and the potential of solar energy can be experienced at the exhibition. Each year, the key players of the solar industry get together to shape this growth.

EES EUROPE

ees Europe is the continent's largest and most international exhibition for batteries and energy storage systems. Under the motto "Innovating energy storage", the yearly event brings together manufacturers, distributors, project developers, system integrators, professional users and suppliers of innovative battery technologies and sustainable solutions for storing renewable energies such as green hydrogen and Power-to-Gas applications.

ees Europe covers the entire value chain of innovative battery and energy storage technologies, from individual components to complete systems.

POWER2DRIVE EUROPE

Power2Drive Europe is the international exhibition for charging infrastructure and e-mobility. Under the motto "Charging the future of mobility", Power2Drive Europe is the ideal meeting point for manufacturers, suppliers, installers, distributors, fleet and energy managers, charging station operators, E-mobility service provider and start-ups. The exhibition shines the spotlight on charging systems, electric vehicles, traction batteries and mobility services as well as innovative solutions and technologies for sustainable mobility.

Power2Drive Europe takes a look at current global market developments, showcases the potential of e-mobility, and reflects the interconnection of electric vehicles with a sustainable energy supply on a global scale.

EM-POWER EUROPE

EM-Power Europe is the international exhibition for energy management and integrated energy solutions. It is focused on modernizing and digitalizing the power grid into a smart grid, injecting flexibility and integrating prosumers, e-mobility as well as power-to-heat concepts into a holistic, renewable energy system.

The exhibition showcases innovative technologies and services for a 24/7 climate-neutral energy supply to grid operators, utility companies, project developers, service providers and decision makers from industry, commerce and real estate.
